Introduction

Who is this book for?

Get Ready for IELTS Speaking has been written for learners with a band score of 3 or 4 who want to achieve a higher score. Using this book will help you improve your pre-intermediate speaking skills for the IELTS Academic Speaking test.

You can use *Get Ready for IELTS Speaking*:

- as a self-study course. We recommend that you work systematically through the 12 units in order to benefit from its progressive structure.
- as a supplementary speaking skills course for IELTS preparation classes. The book provides enough material for approximately 50 hours of classroom activity.

Get Ready for IELTS Speaking

- This comprises a book and a CD.
- The book contains **12 units**. Each unit focuses on a different topic and these topics are ones that often appear in the IELTS exam.
- After every three units, there is a **Review unit** which helps you to revise the language and skills covered in the previous units.
- At the end of the book the **Practice test** gives you the opportunity to take an IELTS-style test under test conditions.
- There is also a full **answer key** at the back of the book so you can check your answers. Here you will find suggested answers for more open-ended questions and model answers for the exam practice questions in Part 3 of the unit.
- The **glossary** at the back of the book lists the useful words from each unit with their Cobuild dictionary definitions.
- The audio CD contains the listening exercises. When you see this icon  please play the CD.

Unit structure

Each unit starts with the **Aims** of the unit. They outline the key language and skills covered.

Part 1: Language development introduces vocabulary related to the topic, as well as phrases and language that can be applied to any topic. The vocabulary exercises give you the opportunity to express complex ideas and opinions so that you are able to do so in the IELTS Speaking test. In addition, each unit covers one or more pronunciation and grammar points. The pronunciation and grammar exercises help you to develop accurate pronunciation, and grammatical range and accuracy to enable you to succeed in the IELTS test.

Part 2: Skills development teaches you exam skills. The information and exercises help you to understand what a good IELTS answer is and also provide you with strategies on how to achieve this. Skills include making notes for Part 2 of the IELTS Speaking test, developing your fluency, and improving the length and quality of your answers to Part 3 of the test by using news articles.

Part 3: Exam practice gives you the opportunity to practise the new language you have learnt by attempting questions from Part 1, Part 2 and Part 3 of the IELTS Speaking test. These test questions increase your familiarity with the exam format and help build your confidence.

Finally, a **checklist** summarises the key points covered in the unit.

Other features

Exam information boxes in each unit provide key background information about the IELTS Speaking exam.

Exam tip boxes provide essential exam techniques and strategies.

Watch out! boxes highlight common errors in the exam.

Study tips

- Each unit contains approximately three hours of study material.
- Try to answer the questions without looking at a dictionary to develop the skill of guessing the meaning of unknown words from context. This is important because dictionaries cannot be used during the actual exam.
- Use a pencil to complete the exercises, so that you can erase your first answers and do the exercises again for revision.
- Try to revise what you have learnt in Parts 1 and 2 before doing the practice IELTS questions in Part 3. This will improve the quality of your answers, and using the new language will help you to remember it.
- It's recommended that you try and complete all questions in the unit as the skills needed to do well at the IELTS test can only be improved through extensive practice.
- Read the answer key carefully as this provides information on what kind of answer is awarded high marks.
- Listen to the sample answers on the CD and practise reading these out loud as you listen, copying the native speakers' pronunciation as closely as you can.
- Record your answers if you can. It will develop your self-awareness: you will be able to hear what you are good at and where you need to improve. Also, hearing how your speaking has improved over time will increase your confidence. Remember that there are no 'right' or 'wrong' answers to the exam questions: the examiner is interested in your English, not in testing the validity of your opinions.
- It is very important that you do not memorise entire sentences or answers. IELTS examiners are trained to spot this and will change the topic if they think you are repeating memorised answers.

Other titles

Also available in the *Collins Get Ready for IELTS* series: *Reading*, *Listening* and *Writing*.

The International English Language Testing System (IELTS) Test

IELTS is jointly managed by the British Council, Cambridge ESOL Examinations and IDP Education, Australia.

There are two versions of the test:

- Academic
- General Training

Academic is for students wishing to study at undergraduate or postgraduate levels in an English-medium environment.

General Training is for people who wish to migrate to an English-speaking country.

This book is primarily for students taking the Academic version.

The Test

There are four modules:

Listening 30 minutes, plus 10 minutes for transferring answers to the answer sheet

NB: the audio is heard *only once*.

Approx. 10 questions per section

Section 1: two speakers discuss a social situation

Section 2: one speaker talks about a non-academic topic

Section 3: up to four speakers discuss an educational project

Section 4: one speaker gives a talk of general academic interest

Reading 60 minutes

3 texts, taken from authentic sources, on general, academic topics. They may contain diagrams, charts, etc.

40 questions: may include multiple choice, sentence completion, completing a diagram, graph or chart, choosing headings, yes/no, true/false questions, classification and matching exercises.

Writing Task 1: 20 minutes: description of a table, chart, graph or diagram (150 words minimum)

Task 2: 40 minutes: an essay in response to an argument or problem (250 words minimum)

Speaking 11–14 minutes

A three-part face-to-face oral interview with an examiner.

The interview is recorded.

Part 1: introductions and general questions (4–5 mins)

Part 2: individual long turn (3–4 mins) – the candidate is given a task, has one minute to prepare, then talks for 1–2 minutes, with some questions from the examiner.

Part 3: two-way discussion (4–5 mins): the examiner asks further questions on the topic from Part 2, and gives the candidate the opportunity to discuss more abstract issues or ideas.

Timetabling Listening, Reading and Writing must be taken on the same day, and in the order listed above. Speaking can be taken up to 7 days before or after the other modules.

Scoring Each section is given a band score. The average of the four scores produces the Overall Band Score. You do not pass or fail IELTS; you receive a score.

IELTS and the Common European Framework of Reference

This table contains the general descriptors for the band scores 1–9:

IELTS Band Scores

1 Marcel

I'm revising for an exam. It's my final year and I'm working very hard. I'm having extra tuition, and my grades are improving.

2 Dee

I'm visiting my brother at college. He's living in halls this year, and he's having a great time. I'm helping him with his coursework this semester, and we're preparing a presentation at the moment.

3 Lara

I'm thinking about doing another course next year. I'm applying for a scholarship at a university in my hometown, and I'm filling out the application form now.

Track 35

Yes, yes they are. My father and my brother studied law at university and they think it is a very nice subject. My mother thinks it is nice and always asks me questions about law. I have lots of friends on the course and we want to get a nice job when we graduate.

Track 36

Yes, yes they are. My father and my brother studied law at university and they think it is a very important subject. My mother thinks it is interesting and always asks me questions about law. I have lots of friends on the course and we want to get a good job when we graduate.

Track 37

1 No, I don't think so. Unfortunately, I think lots of changes were made to the education system last year and teachers and professors aren't happy. They want more money for the schools and universities, but the government can't give them more money.

2 Yes, definitely. I live with my family. I enjoy living at home because I can relax and just study. For example, my parents cook meals, wash my clothes and clean my room. I can spend more time studying and I think this is good.

3 My parents went to a school in my hometown. The school is a very popular one and they enjoyed it. I went to school in another country and I didn't like living away from home. My father went to university but I don't think there were lots of universities in my country at the time. Fortunately, there are lots of universities and colleges there today. I'm visiting different universities at the moment because I'm choosing which course to study next year.

Track 38

1 What are you studying now?

2 Why did you choose that subject?

3 Do you enjoy it? Why?

4 What is the best thing about studying?

5 Are there many jobs for you after you finish studying?

Track 39

1 Do you think young children enjoy going to school and learning?

2 Is it a good idea to live with your family when you are studying?

3 Compare your experience of education to your parents' generation.

4 Many people think there are benefits to studying in another country. Do you agree?

5 Do you think your country has a good education system?

Unit 8 Work

Track 40

- 1 I'm a police officer and I work different shifts each week. My job is to keep people safe.
- 2 I work for a national newspaper. I interview people and write articles. I'm a journalist.
- 3 I help my patients every day. I work in a hospital and I'm a nurse.
- 4 I work as a volunteer. I work with animals and I have to look after them every day.
- 5 I'm a businessman and I work in the city. I work with different companies and I make lots of money.
- 6 I work in a school and my job is to help students pass exams. I'm a teacher.

Track 41

- a I had a part-time job at the company and I really enjoyed it. My boss and my colleagues were professional but very friendly. I applied for a full-time job in my final year at university and I got it. The job is well-paid, so I'm earning a good salary, and I also travel to lots of different countries. It's an exciting job.
- b I work as a personal assistant at a very well-known company. I love my job. I got my job last year. I worked here as a volunteer to get work experience. I really enjoyed it so I wrote to the company director and asked for a job. I use my languages regularly, and I work flexible hours.
- c Two years ago, I worked as a volunteer in a hospital because I wanted to help people. I went to university, but I worked at the hospital each summer. I didn't want to travel the world, so I applied for the job. Now I'm earning a good salary, and it's my dream job!

Track 42

What do you do?

I'm a manager. I work for a well-known international company, so I often have to travel to different offices around the world.

Did you have to get any qualifications or do any training for your job?

Yes, I did. I had to complete three training courses. Thankfully, I didn't have to revise for any exams because the assessment was an interview and giving a presentation.

Do you have to wear a uniform or smart clothes?

I don't have to wear a uniform, but I have to wear a suit to meetings.

Do you have to work long hours?

Yes. At the moment, I need to work hard to complete a project.

What does your job involve?

Well, I have to meet lots of people, but I don't have to speak different languages because we all speak English. I often have to prepare reports or give presentations.

Track 43

That's an interesting question. Let me think. I definitely think that work experience is an important way to learn about a job. I studied business for three years and I graduated with honours. Then I got a good job, but it was really hard work and tiring. I suppose that your first job is always difficult. I learnt lots in my first year there. But my course did help me, for example I understood lots of basic points about business and finance. There are pros and cons. Work experience is an excellent way to learn about a job in real life, but education or training gives you time to learn the theories.

Track 44

That's interesting. Let me see. I think my parents didn't have lots of choices. They worked in their hometown or maybe the capital city. I guess that they wrote letters to apply for jobs advertised in the local newspaper. I don't think my parents' generation usually travelled for work. I'm not sure. But I can apply for jobs anywhere in the world. I look for jobs online and email application forms from my laptop. So I think it's easy for my generation. There are advantages and disadvantages, because today I have lots of different opportunities and it's sometimes difficult to make a decision.

Track 45

- 1 In your opinion, do people work more now than in the past?
- 2 Do you think companies need people to travel to an office and work there, or can people work from home?

Unit 9 Holidays and travel

Track 46

I'm going to learn new sports, like basketball and American football. I think both sports are very exciting. I'm also going to take lessons in water sports, but I'm not going to go swimming in the sea because I'm not a very good swimmer.

I'm not going to go sightseeing, but I'm going to visit local festivals and I'm going to eat in traditional restaurants. The food is going to be delicious.

That's interesting. I think it's important to play sports. There are lots of different sports now and you can learn a new sport wherever you live. Sports people earn a good salary. I think it's a good job. I'd like to be a professional golfer. But there are some boring sports. For example, I don't like watching motor racing.

- 2 In your opinion, do you think relaxing is an important part of being healthy?
Definitely. I think relaxing is a very important part of being healthy. We are always busy. We're travelling to work or college, we're meeting friends, we're doing homework. So in my opinion, I think it's important to slow down and relax. It is good for our bodies and our minds.

- 3 How can we encourage young people to be healthy?

That's a difficult question. Let me see. Unfortunately, in my country, young people like playing computer games and they usually like eating junk food. We should encourage them to play game outdoors. For example, they could go to the beach and do water sports. We should encourage them to learn about food and cook some healthy food with their families.

Unit 11 Important events

Track 63

I remember getting to the airport and feeling really nervous. I had lots of bags, my passport, my currency and I looked for the check-in desk. Then I couldn't find my ticket but my mother had it in her bag. My parents came with me to say goodbye. They

knew it was an important day for me because I was travelling on my own for the first time. I checked in my luggage and then I felt very excited.

Track 64

I was very nervous before the national championships. I felt terrified! We travelled to the city the night before and it was a long and boring journey on the bus. We were all really tired when we woke up the next day. Finally, our match started. I was surprised because some of the players on my team were very relaxed. The opposition were an excellent team and the match was tiring, but thankfully we won! We were all delighted and I think our manager was satisfied with the result. It was a really exciting event for me.

Track 65

- 1 I was very bored at my brother's graduation.
- 2 I feel really tired at the end of the week.
- 3 I was very surprised when I passed all my exams.
- 4 I felt really excited when I travelled on my own.

Track 66

I think the most important event for a student is graduation day. It is more important than end-of-year exams because you are celebrating the end of university. I think graduates are happier than undergraduates because there are no more exams. Finding a job is more worrying than taking exams.

Track 67

- 1 When was your last holiday?
- 2 What do you do?
- 3 What do you usually watch on TV?
- 4 What are you studying now?
- 5 Why did you choose that subject?

Track 68

I'd like to talk about an enjoyable event I experienced when I was at school.

It happened in my senior school and I was about fifteen or sixteen years old. There was a story writing competition in the local newspaper and my teacher said I should enter it. I really enjoyed writing stories and poems, so I wrote a story and I entered the competition. I was very nervous, but thankfully I won! I was really surprised.

It was good because I won some money and some books. It made me more confident about studying, too. I applied for college after winning the competition.

I went to the presentation ceremony in my hometown. I went with my parents and my sister. There were lots of people there, and there was a photographer taking photos. It was one of the most exciting days of my life.

Finally, it was enjoyable because my parents were very proud and we celebrated with a party at home. I often look at the photo from the competition. I've had the photo on my bookcase for about six years. It's very special to me.

Track 69

- 1 Do you come from a large family?
- 2 Did you have a favourite teacher at school?
- 3 Do you have any hobbies?
- 4 Describe your hometown.
- 5 What's your experience of travelling to other countries?

Track 70

I'd like you to describe an important event in your life. You should say what the event was, where and when it took place, who was there at the time and explain what made it important to you.

Track 71

- 1 Compare how important events, like weddings, have changed compared to your parents' generation.
- 2 In your opinion, how should people remember important events from their country's past?
- 3 How do schools in your country help pupils prepare for events like sports competitions or end-of-year exams?
- 4 Many people think photos are the best way to remember special occasions. Do you agree?

Unit 12 Possessions

Track 72

One of my favourite possessions is my electric guitar. It was very expensive and it was a birthday present for my eighteenth birthday. My

grandparents gave it to me. It's modern and red and white. I play it every day. I think it's made of wood and plastic. I like it because my grandparents gave it to me and my birthday was a very special day.

One of my favourite possessions is a handbag. It's large, old-fashioned, and it's made of red leather. I love it. It's beautiful. My older sister gave it to me when I graduated. I like it because it reminds me of my graduation, and I use it for carrying all my things.

Track 73

- 1 It's made of leather.
- 2 I use it for texting my friends.
- 3 I like it because it's unusual.
- 4 It's important to me because my father gave it to me.
- 5 It reminds me of home.

Track 74

- 5 I've worn this watch for years.
- 6 I've wanted a new car since I passed my driving test.

Track 75

- 2 Which is the most popular place to go shopping in your hometown?
- 3 How often do you shop online?
- 4 When did you last buy a present for someone?
- 5 What do you like doing when you go out?

Track 76

I'd like you to describe something you own which is very important to you. You should say what it is and what it looks like, what it is made of, how long you have had it and explain why it is important to you.

Track 77

- 1 In your opinion, do possessions make people happy?
- 2 Compare the important possessions you have with the important possessions your parents have.
- 3 Many people think that shopping is a good way to relax. Do you agree?
- 4 Is it better to receive a present or to give a present?

I'd like you to describe a person who helped you. You should say, where you met the person, what relationship this person was to you, what was special about them and explain how this person helped you.

Would you like to help someone in this way?

Track 80

We've been talking about a person who you admire, and now I'd like to ask you some more general questions about people.

Do you think we can learn anything from older generations?

Compare the role of the family in today's world to the past.

Should we ask our family for help, or should we try being independent?

met me, and we drove to Dubai. It was maybe one hour until the outskirts, then the traffic was very bad. In Dubai, you have to take the car everywhere. We relaxed and went to the shopping malls, they are great, and the beaches. We chatted mainly. We haven't seen each other for long time. And we went skiing! In the shopping mall there is a slope. It was interesting because it has many contrasts, because you have lots of poor people and lots of very, very rich people. There is no middle class there and the places you go, there is gold, too much gold and, on the other hand there are many people living there, they are immigrants.

When did you last watch television?

I watched television yesterday. I finished my homework and I watched a couple of soap operas with my friends.

What do you usually watch on television?

I usually watch reality TV shows or game shows. I sometimes watch drama series too.

What are some popular programmes in your country?

TV is very popular in my country. There are lots of channels. Soap operas are very popular. Everybody watches them.

Why do you think some TV programmes are popular?

I think soap operas are popular because we like watching characters in real life. The characters are like friends or neighbours. It's good entertainment, because it is sometimes relaxing and sometimes exciting.

Part 2

Exercise 2

Model answer:

I'd like to talk about a TV programme I enjoy watching called *Chat Chat*.

It's a popular talk show and the guests are usually famous actors or singers. For example, two Oscar winners were on the show last week.

Firstly, my favourite parts are the presenter and the music. The presenter is very funny and very good at his job. A good example of this is when he interviews guests. He is very kind and patient, so he can ask difficult questions and get honest answers. There is always a music part at the end of the show. A singer or group sing a song.

I usually watch this show on Saturday afternoons when I'm at my cousin's house. We love watching this show and we eat some snacks and just relax.

Finally, I enjoy watching this programme because it is funny, interesting and relaxing. I forget about my studies and my problems, and I enjoy learning about these famous people.

Exercise 7

Possible answers:

I'd like to describe my favourite type of weather. My country has three seasons and there are lots of types of weather. It is a difficult choice for me, but I think my favourite is wet weather. I prefer this to the dry weather.

Yes, wet weather is my favourite. I like going shopping when the weather is wet because the shops are all indoors. I also like cooking delicious meals for my family when there's lots of rain. **My favourite dish is a traditional meal with chicken and rice.**

I often experience this weather in other countries. I like travelling in Europe and I always take my umbrella with me. The wet weather lasts for a long time there. It is different from my country because the rainy season only lasts for two months. **It lasts from May to June.**

This weather is good for relaxing. For example, you can stay at home and just watch television. You can chat to your friends online too. **I speak to my friends for two or three hours.**

I really like the weather in spring. It's often warm but it is sometimes very hot. It's often cold too. There's lots of rain in spring. I like the different types of weather because you can't answer the question 'what's the weather like today?' We don't know!

It is different from other season in my country because it changes quickly. On Monday it's sunny, but on Tuesday there are thunderstorms. In summer, the weather is always hot. In autumn, the weather is usually cold and dry. In winter, it is always very cold and windy. Winter makes me feel sad.

The main reason why it is my favourite season is because there's lots of sun and you can do sports outside or just enjoy the warm weather with friends. Spring is also the end of winter which I don't like.

Exercise 1

Model answers:

- 1 I'm a nurse. I work in a hospital near my home.
- 2 Yes, I enjoy my work. My job is great because I help people every day.
- 3 No, I don't think so. Maybe I can train as a chef because I like cooking.
- 4 I work for a private hospital. It is very well-known in my country. It is a friendly place to work. We get lots of training and we can work flexible hours. It's a good company.
- 5 Well, I work different shifts so I start work at different times. I get to the hospital and I talk to the other nurses about what we have to do that day. Then we visit all the patients and help them. I prepare food and medicine for the doctors.

Part 2

Exercise 2

Model answer:

I'd like to talk about a job I had in the past. When I was at college, I worked in an office as a receptionist.

I got the job because I applied for it. I saw an advert on a college notice board for a temporary receptionist. It was well-paid and the office was near the college. I emailed my CV and then I visited the office for an interview.

The job involved computer work and talking to people on the telephone. I liked using my languages and I enjoyed working with different people. I had to organize meetings and prepare reports. I sometimes visited another office and worked there.

I wanted the job because it was well-paid and I saved for a holiday. I also got work experience in a busy and exciting company and I think that's important. I learnt a lot.

Finally, I did the job well. They gave me a good report for my college and they also brought me some flowers and a card to say thank you. I'd like to work there again.

Exercise 3

Model answers:

My colleagues were really nice. They were very friendly and helpful. My boss was friendly too.

Part 3

Exercise 4

Model answers:

- 1 That's an interesting question. In my opinion, I don't think it's a good idea for families to work together. For example, I have to work very hard in my job and I often feel sad or angry. But then I go home to my family and it's OK. It would be difficult if I had an argument at work, with my family, and then the argument continued at home.
- 2 Maybe. I think that work experience is very useful and you can learn a lot about the job. For example, maybe you don't like the job and want to look for a different career. I think it's also important to get a qualification and to go to college, then you can learn about background of the job.
- 3 Yes, definitely. We have computers and mobile phones and lots of people work from home today. It is normal. In the past, I think people travelled to a company and worked there, and then went home. All the work was done in the company. Today the world is very busy and people work more in their free time because they need money or because they have to work hard.
- 4 I'm not sure. I think it's a relaxing way to do a job because there aren't any noisy colleagues there. You can work flexible hours too which is good. But you need a big house and a desk and equipment, so it's difficult and expensive. Maybe it's a good idea to work at home for a day or two days but not every day.

Part 2

Exercise 2

Model answers:

I'd like to talk about a special holiday I went on about two years ago. It was a learning holiday with my school.

Ten people from my class went to London in England and we went to take an English course at a university. It was about two years ago and it was in the summer. The course lasted for three weeks. We stayed in university halls and the beds were very uncomfortable.

We did lots of things. First of all, we studied very hard but we made lots of new friends. At the weekends, we went sightseeing and we visited tourist attractions. There are lots of beautiful places in London. I really enjoyed visiting the historical sites and going to the art galleries. We learnt new sports in the evenings. For example, we played cricket and rugby. Another thing we did was go on a day trip to Stratford to see a play by Shakespeare. It was a beautiful city but I didn't understand the play. We had an exam on the last day and thankfully I passed.

Finally, it's a special holiday because it was the first time I went on holiday without my family. It was also the first time I visited England and practised my English. It was very exciting.

Exercise 3

Model answer:

Yes, I'm going to do a language programme next year. I'm going to America and I'm going to work in a school for work experience.

Part 3

Exercise 4

Model answers:

1 I think travelling is very easy for my generation. It is cheap and quick to buy tickets on the internet and lots of people travel every day, for work or for holidays. But for my parents' generation, I think tickets were expensive and travelling wasn't very common. I don't think people went on long holidays to different countries, I think they probably stayed in their own country.

2 Yes, absolutely. My country is beautiful and the people are very friendly. Tourists come to my country every day so I think it's a good idea for us to visit the different areas of the country too. You can learn more about your country and its history and you can try local food or visit ancient ruins. I think it's a good idea.

3 That's interesting. I'm not sure. Most hotels or businesses speak lots of different languages so it's not important. Tourist attractions have guides that translate too. But it's polite to speak the language and to understand the people. I think it makes the visit more interesting.

4 Yes, absolutely. My favourite holidays or day trips are with my friends. Fortunately, we all have the same interests and like doing the same things and we can have a great time. I think it's nice to share experiences and take photos. It makes the trip special.

- 2 It depends. Sometimes I watch important football games on TV. I prefer listening to sports on the radio or on my mobile.
- 3 Yes, I like playing golf. I always play at the weekend with my friends. I often go to the gym too. It's important to keep fit.
- 4 In my country, the most popular sport is football. Everybody loves it. Young boys play football every day and they'd like to be professional football players.
- 5 I spend four or five hours a week on my hobbies. I'd like to spend more time on my hobbies and interests, but my university course is very hard.

Part 2

Exercise 2

Model answers:

I'd like to describe an activity I like doing to keep healthy. The activity is yoga.

I really enjoy doing yoga. I do yoga every week and I do it in two different places. Firstly, I do yoga in my bedroom. Sometimes I do it after a hard day at university but I usually do it in the morning. Secondly, I do yoga at a yoga centre near university.

In my opinion, it keeps me healthy in different ways. It is good for my body because I have to be strong and fit. It's really challenging! It is good for my mind too, because I have to focus my mind on one thing. It's good to forget about studying and exams when you are tired.

Finally, I like doing it because it's important to keep fit and it makes me feel very relaxed and calm. I don't like going to gyms or noisy places, so doing yoga at home or in a quiet class is great.

Exercise 3

Model answers:

- 1 No. My sister likes doing tae kwon do. She tried yoga but she didn't like it. My brother prefers playing football or cricket. He likes team sports.
- 2 Yes, I'd like to do yoga every day. I'm going to do more yoga after my exams finish. In fact, I'm going on a yoga holiday in the summer.

Part 3

Exercise 4

Model answers:

- 1 That's an interesting question. There are lots of differences between sports now and in the past. I think money is one big difference. For example, big companies sponsor some sports competitions and competitors can win lots of money. Technology is another difference. For example, motor racing is different compared to the past. Today the cars are very fast and drivers often make new records.
- 2 I'm not sure. I think some people eat better because they have lots of money. They can buy different fresh food or they can go to the best restaurants. Cooking is a popular hobby for some people. But there are lots of poor people in my country and they don't eat well. For example, they have to eat cheap food or junk food and this is bad for them.
- 3 That's interesting. Firstly, I think we should encourage young people to be healthy. It's important to stay healthy. We should use the media and famous people to encourage young people. For example, TV shows can show people exciting sports. Famous people can describe activities or healthy diets. Finally, parents should show their children how to be healthy.
- 4 Yes, definitely. In my opinion, I think the government should teach people about healthy lifestyles. For example, give people information about healthy diets so people can eat well. They should describe different activities that are good for your mind and for your body. Then people in the country can be fit and happy and healthy.

1 Yes, I have a large family. There is my mother, my father, four brothers and one sister. My parents are from big families too, so I've got lots of cousins.

2 Yes, my favourite teacher at school was Mrs Holder. She was very kind and she taught English and French. Everybody enjoyed her lessons. She was clever and funny.

3 Yes, I'm a creative person, so I enjoy making things. For example, I like drawing pictures or making cakes. I make lots of traditional food and I like eating out at restaurants.

4 My hometown is very small. It's near the border and it's very pretty. There's a beach and a harbour. There aren't many shops or offices. It's very friendly and it's famous for the old bridge in the town centre.

5 I've been to lots of countries. I've been to Europe three or four times. I've been to America and I've been to Australia. I really enjoy travelling. I think it's important to learn about other countries.

Part 2**Exercise 2****Model answers:**

I'd like to describe an important event in my life. I'd like to describe my graduation from high school.

This took place in 2010 and in my hometown. I live near my school and my father went to the school. My grandfather went to the school too and my mother taught there when I was young. It's important to my family. The graduation didn't happen at the school. It happened at the town hall. It's a beautiful, old building and it opens for special occasions.

My family were there. All of my friends from school were there. There were some important people from the town too. They made a speech and gave me the graduation certificate.

Finally, it was important to me for lots of different reasons. Firstly, my grandparents live in another town but they made the trip to see my graduation. I was surprised to see them. Secondly, I had extra tuition in my final year at school and it was very challenging for me. I felt really satisfied when I passed my exams. Finally, it was my birthday too, so I got lots of presents. It was one of the best days of my life.

Exercise 3

Model answers:

- 1 Definitely. Life is very busy and it's important to remember special days. It's good to talk about it with your family and friends and look at photos of the event. It makes me feel very happy.
- 2 That's a difficult question. Let me think. I think planned events are more enjoyable because planned events are usually bigger and more important. For example, a graduation or a wedding.

Part 3

Exercise 4

Model answers:

- 1 That's interesting. Let me see. Firstly, I think people are getting married when they are older now. People got married really young in my parents' generation. In my opinion, I think organizing events is very different. Today we can plan things using the internet at home, but in the past people spent lots of time travelling to shops or places to discuss events.
- 2 That's an interesting question. There are lots of ways to remember important events. I think people should remember the most important events by learning about the event and then going to a celebration each year. In my country, we have parades or festivals to remember important events. I think this is a good way.
- 3 In my country, sports and exams are very important. For example, there are lots of schools with special departments that teach sports and the teachers are sometimes professional sports people. I think all schools organize lots of extra tuition to help students before exams. I had problems in my last year at school and I had extra classes to help me. It's important to work hard.
- 4 Yes, definitely. I've got lots of photos on my mobile and on my laptop. They make me feel happy and they remind me of a special day or a funny day. It's one of the best ways to remember special occasions. Some people like making videos of the special occasion or buying gifts. I think these are good but in my opinion photos are the best.

Part 2

Exercise 2

Model answers:

I'd like to describe something which is very important to me. The possession is my mobile phone.

It's very small, modern and red and silver. I think it's made of metal and plastic. It looks great. It's very fashionable and expensive too. I carry it in my bag every day

I've had it for six months. I got it when I was on holiday in England. It reminds me of my holiday and the rainy weather. I've used it every day since I bought it. I use it to download apps and listen to music. I text or call my family with it. I can use the internet and I can organize my diary. I can do everything with it. It's really good.

Finally, it's important to me because it's my connection with my family. Now I'm living and studying in another country, I rarely see my family. I can make video calls with my phone and see my parents. It makes me feel happy.

Exercise 3

Model answers:

- 1 Yes, there are lots of mobile phones in shops. I can go to the shopping mall

tomorrow and buy a new mobile phone. I enjoy shopping so it would be fun.

- 2 Yes, absolutely. I think my mobile phone is one of the best phones. My best friend likes my mobile, because its' smaller than his mobile phone.

Part 3

Exercise 4

Model answers:

- 1 That's an interesting question. It depends. I think possessions can make people happy, yes. For example, you're working really hard for your exams and then someone buys you a 'good luck' present. I think that would make people happy. Lots of people own expensive objects but they feel sad. In my opinion, I think friends and family make people happier than objects.
- 2 My most important possession is probably my mobile phone. I always carry it in my bag and I use it every day. I think my parents' important possessions are probably big things like cars or houses. I think family photos are probably more important to my mother. I suppose young people think modern, electrical things are more important than big, expensive objects.
- 3 Yes, absolutely. I love shopping. It's a relaxing activity for me and I spend lots of my free time going to the shopping mall. It's relaxing because you can meet your friends and go shopping together. I like shopping online too. When the shopping mall is very busy or when you are really tired, you can look online and then buy things.
- 4 That's interesting. Let me see. I really enjoy giving presents to people. I like thinking about the present, buying it and wrapping it. When the person opens the present, it makes me feel satisfied. But I like getting presents too. I got this coat for my birthday and I've worn it every day since my birthday. I think it's better to receive a present.

I also like going to the gym or going jogging, but sometimes I like doing nothing or watching films with my cousins. It's important to relax.

Part 2

Model answers:

I'd like to describe a person who helped me. I'm going to talk about a teacher from my high school. Her name was Mrs. White.

I met Mrs. White on my first day at school. I felt very nervous because I didn't know anyone. My family moved to the city about one month before school term, so I didn't have any friends. She talked to my parents and then we walked to her classroom. I sat at a table with two funny boys. We've been friends since my first day.

Mrs. White was a very friendly and kind person. She always listened to students and helped them. She was a great teacher and her lessons were very interesting. It made me feel confident about studying.

I think she was special because she liked everybody in her class. She encouraged everybody to work hard and to think about jobs and careers. But she was really funny and the class had fun too.

Finally, Mrs. White helped me because she encouraged me to apply for a university course. She helped me with my application form and she organized a scholarship for me. She was great.

Yes, I'd like to help someone in this way. I think it's important to help others. Actually, I'm training to be a teacher, so I'm going to help lots of children. I'm going to graduate in the summer, then I'm going to work in a school in my hometown. I'm very excited.

Part 3

Model answers:

- 1 Yes, definitely. In my opinion, we can learn lots of things from older generations. Firstly, we can learn about history or tradition and what happened in the past. Secondly, we can listen to advice from people with lots of experience. Finally, I think it's important to listen to a different opinion because it helps people to understand the world.
- 2 That's an interesting question. Let me think. I think today's family rarely live together. People live and work all over the world. Families often don't live in the same town or country. I'm not sure, but I think families lived together in the past. In my opinion, I think it was easier for families to help family members in the past. It is harder when people live in another place.
- 3 That's a very difficult question. I'm not sure. I think families should help but we should be independent too. It depends. I think we should ask families for help with big problems, because they can give advice or money. But I think we should try being independent with smaller problems.
- 4 In my country, we have a coming-of-age ceremony on your eighteenth birthday. This is when you're going to be an adult. It's a very important occasion and we celebrate it with family and friends. But I think some people become adults after they are eighteen. For example, when you are independent and live in another country, or when you get married.
